

FM2B10: Practical 1

Due Date: 10 August 2016, 11:00

Create a website for your favorite restaurant. The website should consist of a home page and individual pages for at least four dishes.

You are required to use the following elements:

- Bold, Italic and Underlined text
- Ordered and unordered lists (Ordered and Unordered)
- A table
- Two different type of headings
- Horizontal line
- Images

The site should make use of external CSS to style the pages. Provide 2 separate CSS files that will adjust the style of the page without having to edit the content.

The CSS should set the following:

- Font
- Font color
- Font size
- Background color

Description	Marks
Web Page HTML Markup	20
Use of required tags	20
Use of External CSS	20
Look and feel	20
Total	80

*Attendance is compulsory. If you do not attend your submission will not be marked. If you engage in the act of plagiarism you will receive 0. If you copy **both** parties will get a 0 mark.*
